Distribution of final grades in Bachelor's degree programmes classified by ISCED fields

0311 Economics

In order to achieve better comparability between various grading systems, the Humboldt-Universität zu Berlin follows the European Union regulations providing relative grades in the form of grade distribution tables.¹ For that reason, the HU Berlin uses a reference group selection based on the International Standard Classification of Education (ISCED).² The data for ECTS grading tables are generated annually. The reference period includes three previous calendar years at the time of data collection respectively.

Field of study: Economics (B.Sc.)

Average
