Manuscript: PAT-2025-2-8/R1 RESUBMISSION - Duodenal foveolar adenoma – case presentation with whole exome sequencing and review of the literature

Authors: Ádám Ferenczi (Co-author), Sofia Germano (Co-author), Joana Afonso (Co-author), Levente Kuthi (Co-author), Tamás Lantos (Co-author), Anita Sejben (Corresponding Author)

Date submitted: 2025-04-10

Dear Dr. Sejben

We are pleased to inform you that your manuscript Duodenal foveolar adenoma – case presentation with whole exome sequencing and review of the literature has been accepted for publication.

Your files will now be checked to ensure they fulfill all technical production requirements before the first corresponding author is contacted to finalize the license and publication terms under which your accepted manuscript will be published.

Are you interested in reaching a wider audience with your research? Then have a look at our ["Science communications and outreach services for academic institutions."](#), specialized in converting complex topics into comprehensible content like podcasts, video abstracts or animations.

Social media channels offer a great platform to increase the visibility of your published research. Explore additional strategies to [get your publication seen](#) by your target readership.

We hope you will continue to submit work from your group to the Pathobiology in the future and thank you for your valuable contribution.

Sincerely,

Fernando Schmitt
