"Deep learning-based prediction of right ventricular ejection fraction using 2D echocardiograms"

Dear Dr. Tokodi:

On behalf of the American College of Cardiology, we are pleased to accept your above referenced manuscript for publication. We will soon schedule it for an upcoming issue. You will receive separate correspondence with a link to your electronic form shortly after this email.

PLEASE ALSO NOTE THE FOLLOWING PENDING ITEMS, WHICH MUST BE RECEIVED BEFORE WE CAN SCHEDULE YOUR ARTICLE FOR PUBLICATION. ALL ITEMS SHOULD BE EMAILED TO US AT: jaccimg@acc.org

1. We are committed to providing the widest possible exposure to your article across many platforms, including highlighting it on social media. Please provide a summary of your article for use on social media. It should focus on what you found, its impact, and why the reader should know about it. **Please note that this information will be reviewed and edited by our Social Media Editor and may not be published.**

The maximum character limit is 280 characters, which includes spaces. A representative figure or video from your article should be selected to accompany this summary. Please consider use of appropriate hashtags to maximize visibility. Here is the ACC's Hashtag Reference Guide, which includes major clinical hashtags, to help with crafting your Tweets:

<https://www.acc.org/-/media/Non-Clinical/Files-PDFs-Excel-MS-Word-etc/About-ACC/Social-Media/ACC-Social-Media-Hashtag-Reference-Guide.pdf>

2. Upon publication, we also encourage you to promote your paper from your personal Twitter, Facebook and/or Instagram handle. By tagging @JACCJournals and #JACCIMG you can help broaden the reach to your own followers who may not be following the journal. You are also encouraged to like or share journal-related items posted to the American College of Cardiology's LinkedIn and WeChat accounts.

****NOTE ABOUT ACCEPTED PAPERS:****

In order to add or remove any authors after acceptance of their paper, all listed authors at the time of acceptance need to provide written approval to the JACC Journals' editorial office (jaccimg@acc.org) prior to the scheduling and publication of the paper.

After we forward your paper to our publisher, Elsevier, they will forward you proofs and instructions that will detail how to access the portable document file (PDF) proofs and how to submit your corrections to them. Transmitting proofs will help speed up the publication time and will forward your corrections to Elsevier in a

fast, efficient manner. If you must have traditional paper proofs via mail, the publisher will give you that option. If the original email notification is not opened, the publisher will automatically send paper proofs to your mailing address. ONCE YOU RECEIVE THIS LETTER ELSEVIER WILL BE YOUR CONTACT.

Thank you for your contribution to JACC: Cardiovascular Imaging. Please click here to complete a brief survey on the JACC: Cardiovascular Imaging submission process: <https://www.surveys.acc.org/se/0B87B74436823880>

Sincerely,

Thomas H. Marwick, M.B.B.S., Ph.D., M.P.H.
