

CONGRESSUS
PHARMACEUTICUS
HUNGARICUS (CPH) XVII.
AND EUFAPS ANNUAL MEETING 2024

DEBRECEN

23–25 May 2024
Kölcsey Center, Hungary

PROGRAM BOOK

Potential New Targets: Transient Receptor Potential Ankyrin 1 and Vanilloid 1 Ion Channels and Somatostatin SST4 Receptors are Expressed by Osteosarcoma Cells

Katalin Rozmer^{1,2,3}, Lina Hudhud¹, Angéla Kecskés¹, Noémi Bencze¹, Éva Szöke^{1,3,4}, Zsuzsanna Helyes^{1,3,4}

¹Department of Pharmacology and Pharmacotherapy, Medical School;

²Department of Pharmaceutical Chemistry, Faculty of Pharmacy;

³Hungarian Research Network, Chronic Pain Research Group, University of Pécs, Pécs, Hungary; ⁴National Laboratory for Drug Research and Development, Budapest, Hungary

Attempt to Translating Animal Findings into Human Personalized Medicine: Integrating Brain Imaging and Genetic Data

Dóra Török^{1,2}, Kinga Gecse^{1,2}, Angela Hammer¹, Anna Nemeth¹, Zsófia Gal^{1,2}, Sándor Krause¹, Xenia Gonda^{1,2,3}, György Bagdy^{1,2}, Peter Petschner^{1,2,4,5}, Gabriella Juhasz^{1,2}

¹Department of Pharmacodynamics, Faculty of Pharmacy; ²NAP3.0-SE Neuropsychopharmacology Research Group, Hungarian Brain Research Program; ³Department of Psychiatry and Psychotherapy, Semmelweis University, Budapest, Hungary; ⁴Bioinformatics Center, Institute of Chemical Research; ⁵Research Unit for Realization of Sustainable Society, Kyoto University, Gokasho, Uji, Kyoto, Japan

Isotonic EMSER Salz Nasal Irrigation Exerts Higher Effect on MCC than NaCl Solution; Results of an *In Vitro* Study

Gunnar Husmann, Carina Jockschat, Corinna Brinkmann, Stefan Müller
Innovation and Scientific Affairs, Sidroga Pharma, Bad Ems, Germany

A New Component of Tolperisone's Mechanism of Action – Influencing Synaptic Monoamine Uptake

Dóra Lóska, Peter P. Lakatos, Márton Jakabos, Zoltán Lincmajer, Éva Szökő, Tamás Tábi

Department of Pharmacodynamics, Semmelweis University, Budapest, Hungary
