Manuscript Number: JMRT-D-24-09902R1

Shear strength measurement of nanostructured bulk metals, or interfaces, in small size metal specimen: equipment, testing, and theoretical analysis

Dear Prof. Toth,

Thank you for submitting your manuscript to Journal of Materials Research and Technology.

I am pleased to inform you that your manuscript has been accepted for publication.

My comments, and any reviewer comments, are below.

Your accepted manuscript will now be transferred to our production department. We will create a proof which you will be asked to check, and you will also be asked to complete a number of online forms required for publication. If we need additional information from you during the production process, we will contact you directly.

We appreciate and value your contribution to Journal of Materials Research and Technology. We regularly invite authors of recently published manuscript to participate in the peer review process. If you were not already part of the journal's reviewer pool, you have now been added to it. We look forward to your continued participation in our journal, and we hope you will consider us again for future submissions.

We encourage authors of original research papers to share the research objects – including raw data, methods, protocols, software, hardware and other outputs – associated with their paper. More information on how our open access Research Elements journals can help you do this is available at <https://www.elsevier.com/authors/tools-and-resources/research-elements-journals?>
