Dear Kata,

I hope you enjoyed your stay in Japan.

Here is the information about Professor Yoshinobu Sato. I am sure that his work is excellent and will be helpful for your research in the future.

Yoshinobu Sato, Ph.D | Professor | Imaging-based Computational Biomedicine (ICB) Lab | Nara Institute of Science and Technology (NAIST) | 8916-5 Takayama-cho, Ikoma, Nara 630-0192, Japan | Tel/Fax: +81(0)743-72-5230/5239 | yoshi@is.naist.jp | <http://isw3.naist.jp/Contents/Research/ai-05-en.html>

佐藤 嘉伸 | 奈良先端科学技術大学院大学 | 先端科学技術研究科 | 情報科学領域 | 〒630-0192 奈良県生駒市高山町8916-5 | http://isw3.naist.jp/Contents/Research-ja/48_lab-ja.html

I attached the presentation material as a PDF.

I wish you health and success in your life.

Please have a good trip back home and remind your father of my heartfelt thanks.

I am happy to hear from you about how your project is going. Please keep in contact with me.

With my best regards,

Makoto

Dear Dr. Makoto Hashizume,

I wanted to express my heartfelt gratitude.

You made my visit truly special with your immense knowledge and kindness. Thank you very much for your valuable time! I am writing on behalf of my father as well, meeting you and then dining

with you and your wife was an experience that we will take home with us with great appreciation and remember fondly.

The MCA you created left us with so much to think and learn about. That cutting-edge technology, the mentality, and what you built up is something that rendered us speechless.

I hope to become a researcher who can participate actively in this field in the future and grow into someone who has new and innovative ideas. Thank you for all your advice, I will keep them in mind!

If it is not a problem for you, would you send me the presentation you showed us? Sorry to ask you one more question, you mentioned Dr. Shoto during our dinner, whom I should contact, can I ask how his name is written? I am afraid I misspelled his name, I apologize for that.

I will keep you updated about our work with Professor Kensaku Mori!

With my best regard,

Kata

It is no problem!
It is my fault because I did not tell you the detail change of the train.
Please take it easy to enjoy the atmosphere.

Makoto
