Dear Kata,

It is with great enthusiasm that I share with you the news that **you have been selected for the National Institute for Theory and Mathematics in Biology's Summer Undergraduate Research Program.**

As a reminder the program is run in coordination with the Northwestern Quantitative Biology NSF REU program. You will be placed in one of these programs and will be considered a member of NITMB during your appointment as an undergraduate researcher. The program runs June 17 – August 9, 2024.

You will be paired with an NITMB faculty member from either Northwestern University or University of Chicago. You will receive a tax-deductible stipend of \$4,500.00. You will also receive a meal plan and dormitory housing. Further information to follow.

Please let us know your decision by Thursday, March 7, 2024.

Do not hesitate to reach out with any questions.

With best regards and congratulations,

Tiffany
