

International Conference

Students for students

-Book of abstracts-

Cluj-Napoca, 2015

12th International Conference “Students for Students”
22-26 April 2015

Pharmaceutical Materials.....	67
New Polinuclear Organotin(IV) Systems: Synthesis and Structural Characterization.....	69
Santacruzamate and santacruzamate like molecules- a potential lung cancer drug	71
Silica-titania mesostructured composites as vehicles for antibiotics	73
New 1,2-bis(4-Pyridyl)Ethane-Bridged Copper(II) Coordination Polymers.....	75
Evaluation of nutraceutical potential of seed extracts from Romanian medicinal plants.....	77
Chemical Engineering.....	79
Kinetic models for the mild hydrocracking process...	80
Formulation of antipsychotics and development of their in vitro analitical tests.....	82
Covalent immobilization of Pheylalanine ammonia lyase (PAL) on functionalized carbon nanotubes (SWNT-COOH) for stereoselective biotransformations in continuous-flow reactor.....	84
Modeling and simulation of natural gas chemical looping combustion	86
Flame retardancy of injection moulded self-reinforced polypropylene composites.....	88
Sintering possibilities of various types of Alumina.....	90
Effect of fiber strength on the impact properties of PP/wood composites.....	92
Kinetic model of metals dissolution from WPCBs in persulfate medium.....	94
Investigation of hybrid silica-chitosan coating as controlled drug release model system.....	96
Accidental Pollutant Wave Propagation in Rivers and Counteracting Solutions using PI Controller.
