

THE ROLE OF MOTIVATION IN THE SZINAPSZIS PROGRAM AND PSYCHOLOGICAL MODELS BEHIND TALENT

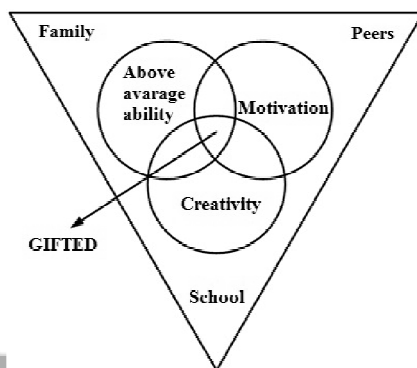

András Zsidó
Psychology MA
University of Pécs

GASI Talent Workshop 22.05.2014

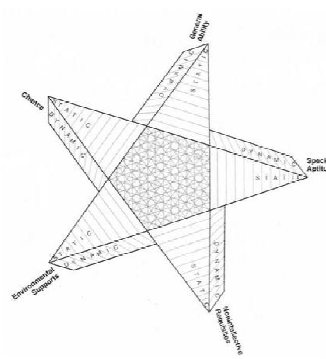

Renzulli's modell - beginnings

Mönks' modell – the environment

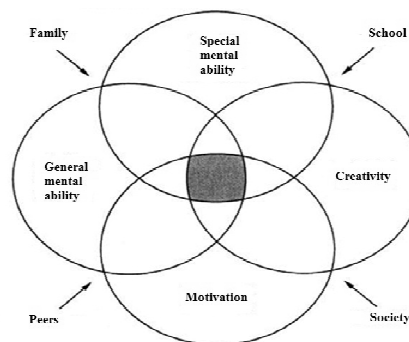

Tannenbaum's starmodel

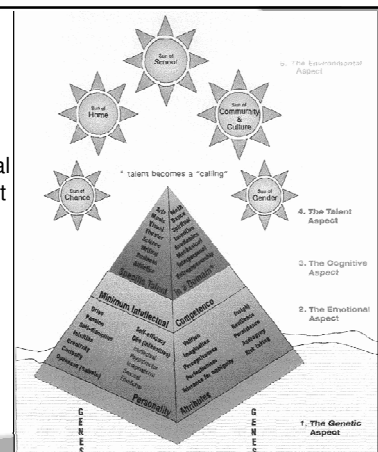

- Dynamic and static aspects
- General and Special
- Considering „Chance”

Czeizel's 2x4+1 factor model

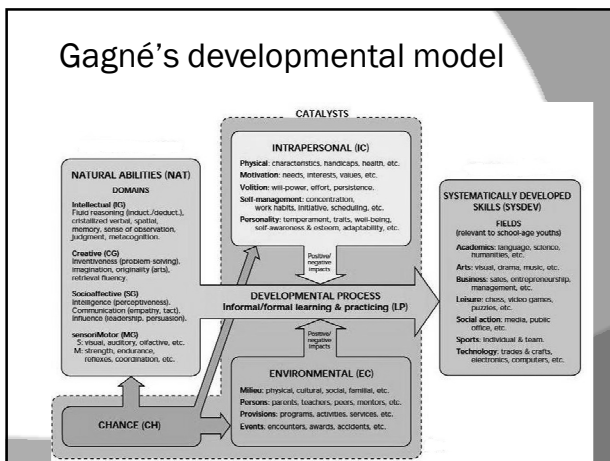

Piirto pyramid model

- Genetic > Emotional > Cognitive > Talent > Environmental Aspects

Gagné's developmental model

Summary of models

- ☉ Talents need intellectual abilities (Gardner's multiple IQ), creativity and much more to develop
- ☉ The most important thing is however **MOTIVATION**
- ☉ Motivation is the main drive

Implications

- ☉ In SZINAPSZIS our goal is to motivate adolescents and give them the opportunity to develop their abilities
- ☉ Show them the diversity of our University
- ☉ The role of Motivation in SZINAPSZIS in my perspective

Thank you for your attention
