Title of the completed Group Study Trip: Libraries as Community Spaces in Physical and Virtual Space

Working language of the completed Group Study Trip: English or German

Brief description of the Completed Group Study Trip:

We completed a short study trip in Oslo. Our goal was to complete a Norwegian-Hungarian joint research project that we started separately in Hungary and in Norway. In addition we studied Norwegian library services and analysed how places were taken into use and how the needs of different target groups were satisfied. We visited altogether 3 Norwegian libraries (Library of University of Oslo, National Library of Norway, Furuset Branch of Deichmann Public Library). These are representing three significant user groups: university students, researchers and multicultural communities.

3. Language skills and competences acquired (if not included under 'Job-related skills and competences')

That was the first time we took part a study tour with English as working language. We had to use English to spoke with the Norwegian librarians, teachers and student.

4. Computer skills and competences acquired (if not included under 'Job-related skills and competences')

We saw new possibilities of the use of IT in libraries (3D printer and audiobook writing-engine).
We could try the self-lending engines in practice.

5. Organisational skills and competences acquired (if not included under 'Job-related skills and competences')

On the one hand we acquired skills of organising a study trip (flight tickets, booking accommodation, organising airport transfer), on the other we got acquainted with a radically different organisational culture that is prevalent in Norway's libraries.

6. Social skills and competences acquired (if not included under 'Job-related skills and competences')

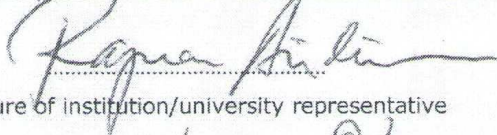

Working in an international environment with people having a different cultural and language background.
