Dear Kinga

We have received in excess of 1500 applications for the Vienna Biocenter Summer School and I am very pleased to inform you that your application has been successful. You have been assigned to **Luisa Cochella's lab** (IMP) for your research project. If you wish to accept this offer would you please confirm via email **no later than Monday 9 March 2015**. It is important that you inform us by this date as those positions not filled will be offered to students that have been placed on our waiting list. After we have received your acceptance further details will be requested for travel, contract, accommodation etc. approximately one week later. I would also appreciate in your reply if you could verify that the address stated in this letter is correct and confirm that you can attend the whole school from 26 June (arrival on 25 June) to 28 August (departure on 29 August).

Let me take this opportunity to congratulate you in excelling in such a competitive selection process. I look forward to hearing from you next week.

Yours sincerely,

Chris
